How We Got Here

2018: How It Started

Skoop Pedicab Co. powered 10,000 free rides in 3 cities, generating \$200K in ad revenue.

2024: How It's Going

Growing 10%, Skoop Signage powers 3,000 screens for more than 1,000 users. The SaaS gives businesses tools do more with less staff amidst the labor shortage.

2028: Where It's Going

The future of digital signage lies in digital team members, delivering top-tier service and redefining the labor force.

PROBLEM

The world wants better service than people can provide

The service businesses can afford **\$20**/hour

The service you want

~~\$100~~/hour

Solution

2022

Control Screens Remotely

Simplify remote management—enable easy control of screens and scheduling, removing the need for physical presence.

2024

Smart Signage

Auto-updating signage solutions that require zero manual intervention, for effortless updates to screens.

2028

Digital Team Members

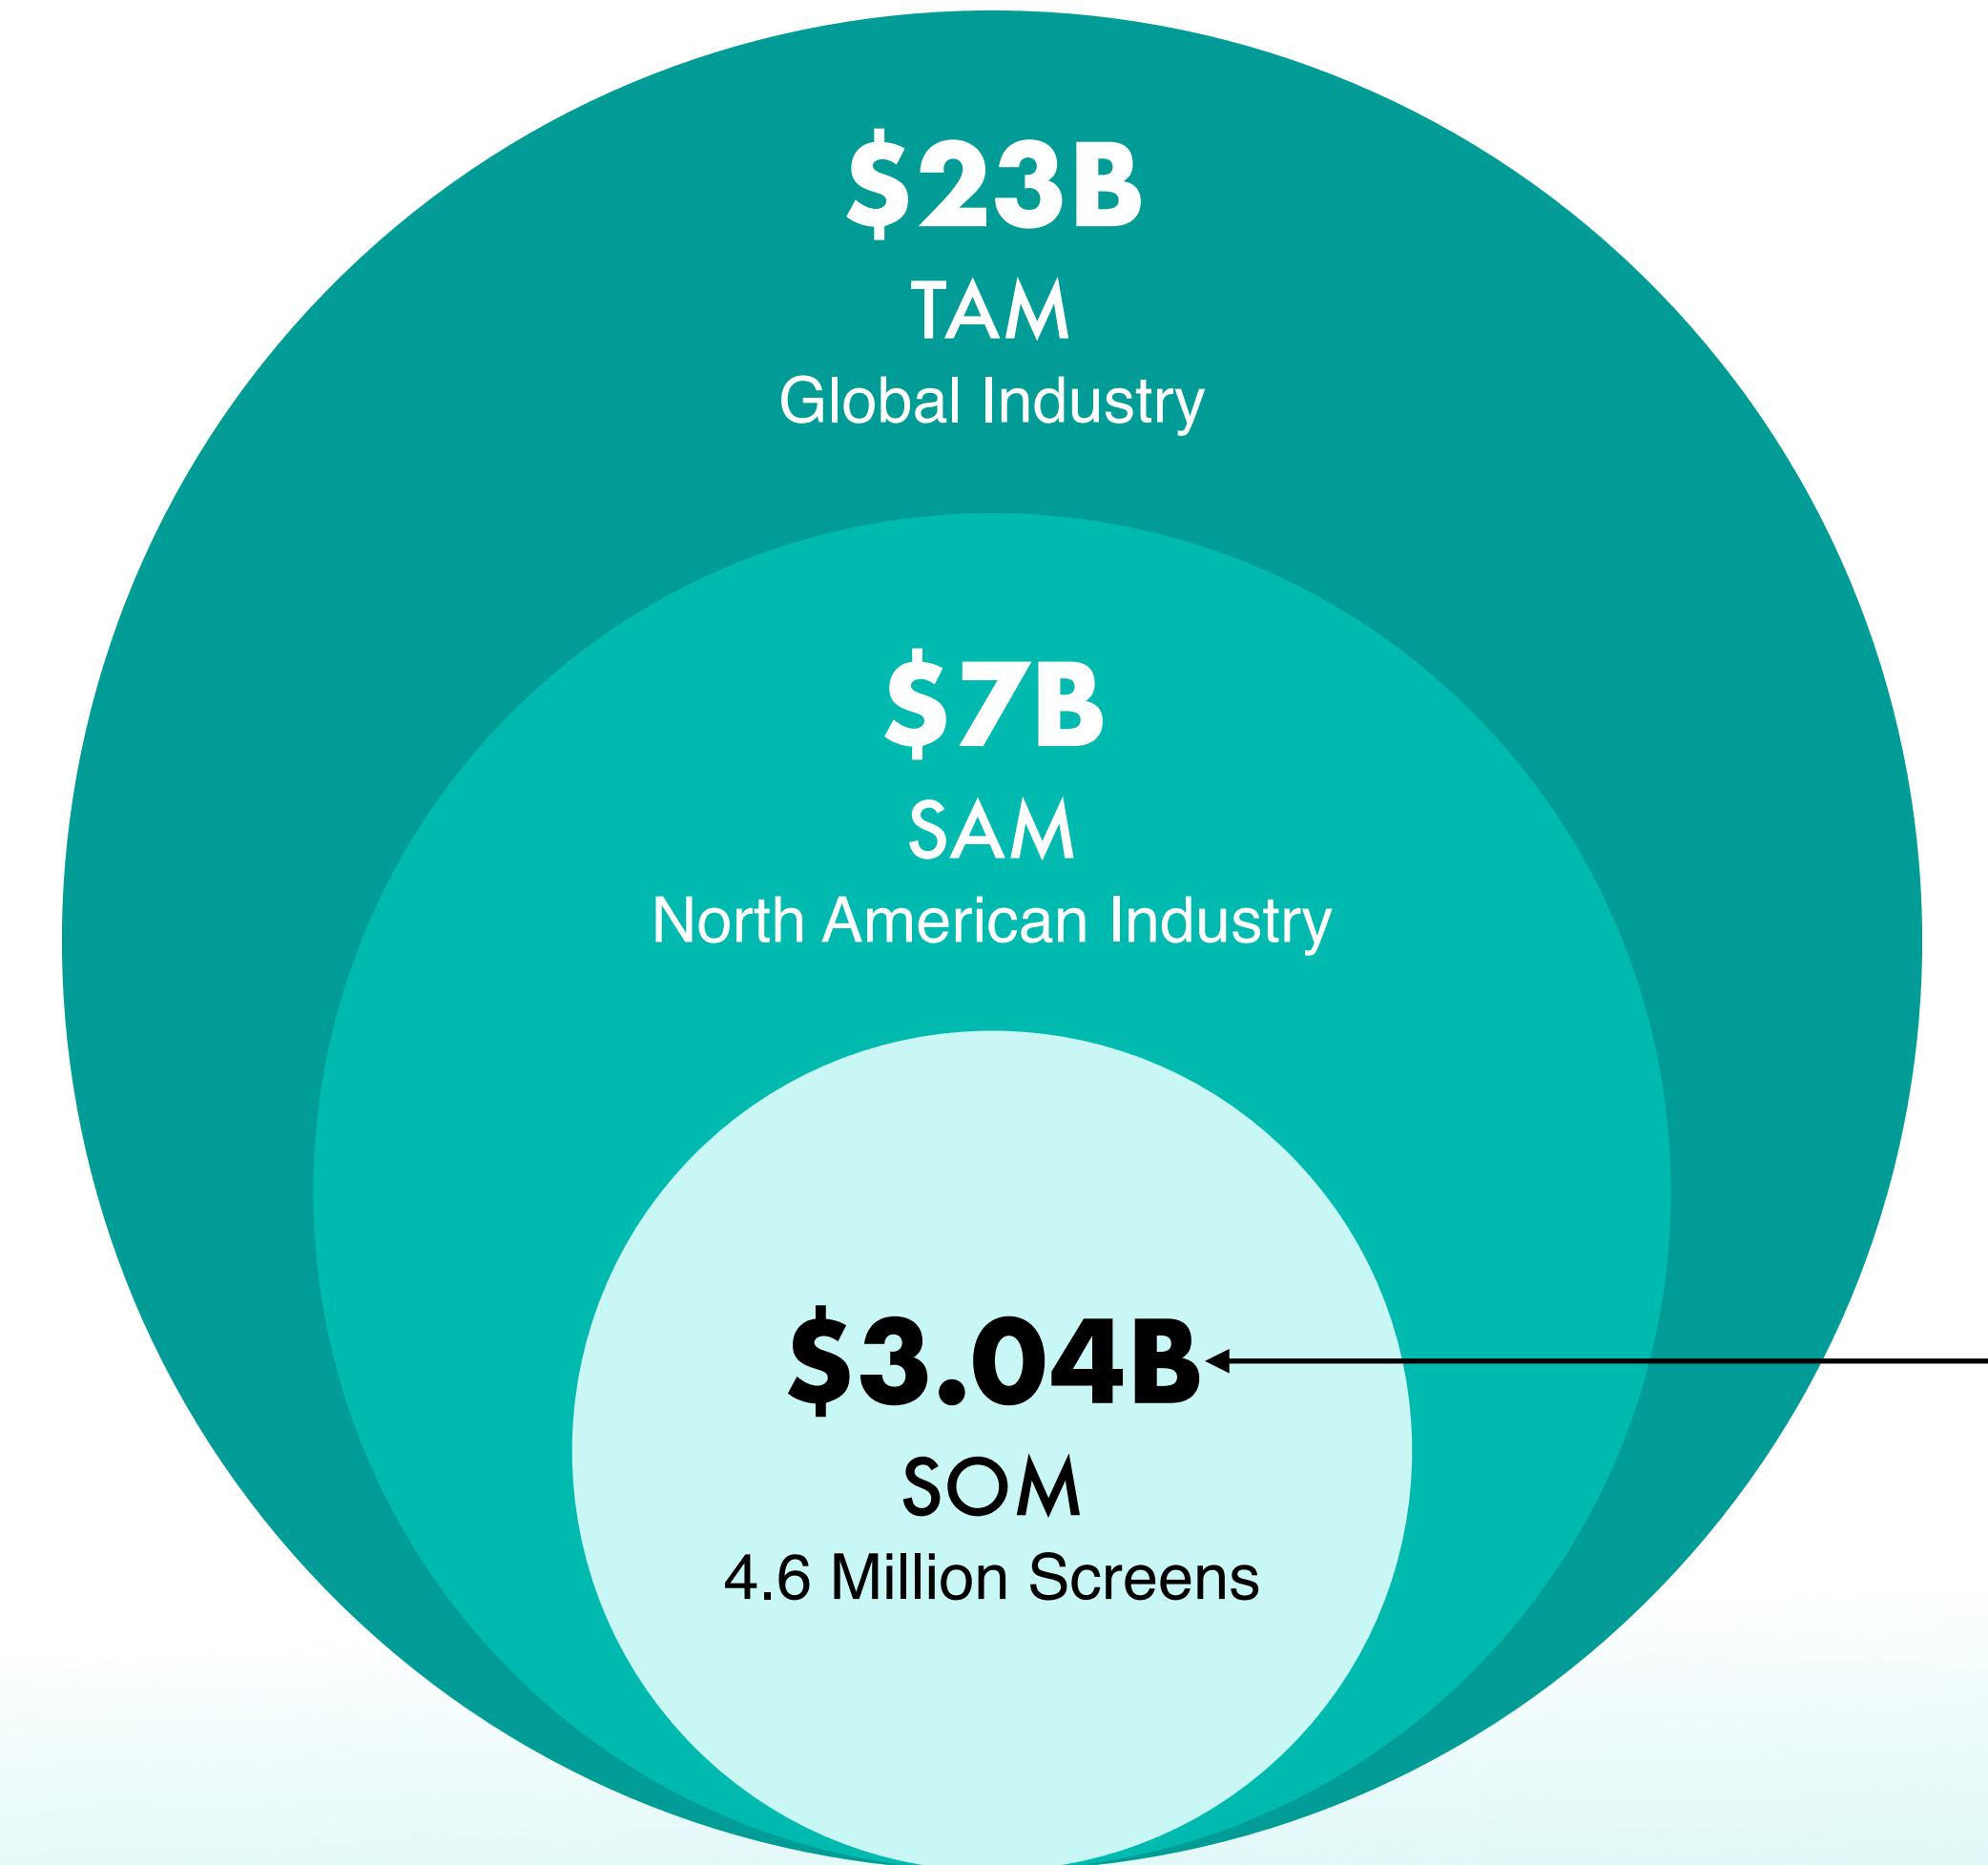

In a world where human service falls short, we rely on digital team members to deliver the top-tier service we demand.
